

International Conference

on

Emerging Smart Materials in Applied Chemistry (ESMAC-2022)

20th- 22nd December, 2022

Organized by: Department of Chemistry, SAS, KIIT-Deemed to be University, Bhubaneswar, Odisha, India

Themes

- Functional materials
- Hybrid Materials
- Bioactive materials
- Smart and intelligent materials

Registration

Students: 750 INR

Faculty: 1500 INR

Industry: 3000 INR

Foreign delegates: 100 USD

Paper publication: 6000 INR

Organising Secretaries

Dr. P. Rath

KIIT Deemed to be University, Bhubaneswar

Dr. T. K. Bastia

KIIT Deemed to be University, Bhubaneswar

Conveners

Dr. R. Sahu

KIIT Deemed to be University, Bhubaneswar

Dr. R. Samantray

KIIT Deemed to be University, Bhubaneswar

Co-conveners

Dr. Jatin K Sinha

KIIT Deemed to be University, Bhubaneswar

Dr. Alok Kumar Panda

KIIT Deemed to be University, Bhubaneswar

Dr. Rakesh Das

KIIT Deemed to be University, Bhubaneswar

Dr. Gopal Pradhan

KIIT Deemed to be University, Bhubaneswar

Dr. Soumya Ranjan Mohapatra

KIIT Deemed to be University, Bhubaneswar

Dr. Anirudha Jena

KIIT Deemed to be University, Bhubaneswar

Plenary/ Keynote/Invited Speakers

Yusuke Yamauchi
Australia

Hoe Joon Kim
South Korea

Zhenxing Wang
China

Ganapati D. Yadav
India

Samaresh Bhattacharya
India

Chittaranjan Sinha
India

Tiglet Besara
USA

Perumal Alagarsamy
India

Rahul Banerjee
India

Jiaqian QIN
Thailand

Anastasiia O. Krushynska
The Netherlands

Pichaya In-Na
Chulalongkorn University

Ateet Dutt
IIM-UNAM,
Mexico

Yogendra Kumar Mishra
University of Southern Denmark

Ajeet Kaushik
USA

Pongsakorn Kanjanaboos
Thailand

Jenny Lockard
USA

CALL FOR PAPERS

The original research papers are invited in the following topics:

- Advanced fibrous materials
- Biomaterials
- Biosensors
- Building materials

- Ceramic materials
- Composite materials
- Fuel-cell materials
- Functional and Textile Materials
- Magnetic materials
- Materials testing, processing and characterization
- Nano biotechnology

- Nano devices
- Nano electronics
- Nano medicine
- Nano photonics and optics
- Nanodrug delivery
- Nanofabrication
- Nanomaterials and nanocomposites
- Nanomechanics
- New Engineering Materials

- Optical materials
- Photonics
- Polymeric materials
- Self-healing Materials
- Smart and Intelligent Materials
- Soft materials
- Super-conductors
- Surface science and interface
- Sustainable Materials
